

A brown bear is shown in profile, standing on its hind legs and leaning over a green Toter trash bin. The bear's mouth is open, and a stream of water is splashing from the bin, creating a misty effect around the bear's face. The background is a blurred forest scene with green trees and a wooden fence.

**Fully Automated
Bear Resistant Carts**

Built for Extremes[®]

IGBC CERTIFIED FULLY AUTOMATED BEAR RESISTANT CART

Toter's Fully Automated Bear-Resistant Carts are designed to minimize conflicts with bears and other predators. Constructed using our Advanced Rotational Molding™ process, these carts are built for exceptional durability. They feature a rugged rim to deter chewing, a double-walled lid, a reinforced handle and hinge, and fewer pry points—making them tough enough to withstand even the strongest claws and jaws!

- Interagency Grizzly Bear Committee's (IGBC) bear-resistant certification for both 64 & 96-gallon carts*
- Improves routing and collection efficiencies due to compatibility with both fully-automated and semiautomated applications
- Safe and robust design is easy to maneuver, yet extremely difficult for bears to compromise
- Strength is enhanced due to structural capabilities like Rugged Rim® and sealed stop bar journals
- Ready to roll design: lids, locks, stop bars, and body are fully assembled upon delivery
- Two thru holes in the lip to allow for water drainage

AVAILABLE IN 64- and 96-GALLON SIZES

Part	Size	Dimensions (L x W x H)	Wheel Size	Weight
79A64	64 Gallon	32.3" x 25.2" x 45.5"	10"	43.9 lbs.
79A96	96 Gallon	36.3" x 30.2" x 45.5"	10"	52.4 lbs.

FEATURES:

- 5 year warranty
- Corrosion and chemical resistant
- Color options
- UV stable
- RFID
- Space for graphics

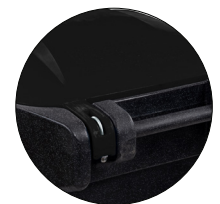

Rugged Rim Design

Increased radius to help prevent chewing

Easy Maneuverability

Rugged Hinge

Recessed Auto Gravity Lock

*Certified by the Interagency Grizzly Bear Committee.

64 Gallon - IGBC Certification Number 5416
96 Gallon - IGBC Certification Number 245294
